## Education

**Ramrao Adik Insitute of Technology**

*Bachelor of Technology in Computer Science*

**Sep. 2021 – Present**

*CGPA - 9.55*

## Experience

**Cisco Systems** | *Technical Intern*

**June 2024 - Present**

- Working directly upon the virtual security products of Cisco known as **ASA**, **FTD**.
- Utilized **Python**, **Shell-scripting**, **Cisco Internal products** to develop automation scripts for testing firewalls and traffic.
- Collaborated with the team, contributing towards the deployment of firewalls, management centers, and various virtual machines on **VMware Vsphere** client.

**Vibencode Pvt. Ltd.** | *Frontend Developer Intern*

**Sep 2023 - Apr 2024**

- Served as a Frontend Developer, contributing to two major client projects globally.
- Utilized **Next.js**, **Redux**, **TypeScript**, **Material UI**, and **TailwindCSS** to develop responsive user interfaces, resulting in a 30% decrease in page load times and developed 15+ client-facing **JavaScript reusable components** across the projects.

**Workset** | *SDE Intern*

**Jan 2023 - Apr 2023**

- Worked as a **SDE Intern**, collaborating on the user interface and maintaining server-side logic and databases.
- Used **PHP** and **MySQL** for development, integrating dynamic APIs.
- Collaborated with the lead Design Team on **Figma**, optimizing and enhancing the performance of the Module and Templates Sections.

## Projects

**Soulmind** | *A mental well-being portal*

**June 2023 — ([App Link](#))**

- Developed a web application combining **React.js frontend**, **Next.js backend**, and various **API** along with **AI model integration** promoting mental well-being.
- Contributed to developing features** like motivational content, a community sharing platform, and **100% customisable environment**.
- Created an engaging as well as responsive **user interface with interactive games** and clear explanations, enhancing user experience and understanding of mental health.

**Bibliotek** | *An academic portal*

**June 2022 — ([App Link](#))**

- Developed an academic portal with a **user-friendly interface** for seamless access to educational resources.
- Teachers can upload documents, take attendance, and make announcements**, while students can access these resources and view important updates.
- Built using the **MERN stack (MongoDB, Express.js, React.js, Node.js)**, ensuring a robust and scalable application.

## Extracurricular

- Built a project called **No-Dues-Project**, which is associated with my college and is currently **operational** on the **college server** with 500+ student requests annually .
- Solved more than 750 questions and contributed to solutions and open sources. ([Leetcode Profile](#))
- Institute winner as well as regional finalists for the Hackathon by Google, GeeksforGeeks and AMD.
- Volunteered and organized a competition at RAIT Tech-Fest 2022.
- Participated in RAIT - Google Developers Student's Club Hackathon 2024 and won the Best Idea Award.

## Technical Skills

**Programming** C++, Javascript, Python, Typescript, C, Java

**Development** React.JS, Next.JS, Node.JS, Express.JS, PHP, MongoDB, Redux, SQL, React Native, Flask

**Cloud** Computer Networking, GCP, VMware, AWS, Cloud Scripting, Firewalls & Security.

**Data Science** Python, Jupyter, NumPy, Pandas, Scikit learn, Tensorflow, Machine Learning Techniques

**Other** AWS, GCP, API, UI/UX, Bootstrap, Project Management ,Tailwind CSS, Communication
